

Ayman Salama Helbawy

Junior .NET Backend Developer | ASP.NET Core | Web APIs | EF Core | SQL Server

Cairo, Egypt | +20 1501435003 | Ayman.Backend@Gmail.com | [linkedin.com/in/aymansalama48](https://www.linkedin.com/in/aymansalama48) | github.com/aymansalama48 | aymansalama48.github.io/portfolio

PROFESSIONAL SUMMARY

Junior .NET Backend Developer proficient in ASP.NET Core, Clean Architecture, CQRS, EF Core, and SQL Server. Built three backend systems (multi-tenant e-commerce, clinic booking, peer-to-peer credit platform) with secure authentication, RBAC, and data-integrity practices, including a team project delivered in a team of 4.

WORK EXPERIENCE

Backend Development Intern — CodePlus

Aug 2026 - Sep 2026 | Cairo, Egypt

- Completed an 8-session Advanced .NET Backend program (CQRS/MediatR, caching, Hangfire, Docker, CI/CD) and delivered Skill-Loop as its graduation project.

PROJECTS

Skill-Loop — Peer-to-Peer Skill-Sharing Platform

Aug 2026 - Sep 2026

CodePlus Internship Graduation Project | Team of 4 | github.com/aymansalama48/Skill-Loop-Backend

- Tech Stack:** .NET 10, Clean Architecture, DDD, CQRS, MediatR, EF Core, SQL Server, Redis, Hangfire, SignalR
- Built a virtual-credit wallet with atomic deductions using optimistic concurrency (RowVersion) to prevent race conditions
- Implemented live-session booking with capacity and duplicate guards, a status lifecycle, and automated credit refunds
- Applied the Outbox Pattern with Hangfire for reliable domain-event processing (instructor payouts, stats updates)
- Added Redis Cache-Aside with event-driven invalidation, and real-time 1-to-1 chat with SignalR

ClinicOS — Clinic Management & Appointment API

Jul 2026 - Sep 2026

github.com/aymansalama48/ClinicOS

- Tech Stack:** ASP.NET Core Web API, Clean Architecture, CQRS, MediatR, EF Core, SQL Server, JWT, Hangfire
- Designed JWT/OAuth authentication with database-driven RBAC via a PermissionAttribute/AuthorizationBehavior pipeline
- Built a concurrency-safe priority queue across 3 staff roles, handling booking vs. walk-in conflicts
- Automated audit trails and workflows using EF Core interceptors, email notification templates, and background job scheduling

CommerceOs — Multi-Tenant E-Commerce Platform

Jan 2026 - May 2026

github.com/aymansalama48/CommerceOs

- Tech Stack:** ASP.NET Core, EF Core, SQL Server, ASP.NET Core Identity, JWT, React 19, TypeScript, Serilog
- Eliminated cross-tenant data leaks across 35+ tables using EF Core Global Query Filters
- Engineered a 10-state order lifecycle with RBAC-gated transitions across 7 roles and dual JWT sessions
- Delivered a React storefront with dynamic pricing, coupon logic, and real-time shipping calculation

TECHNICAL SKILLS

- Backend:** C#, ASP.NET Core Web API, RESTful APIs, ASP.NET Core Identity, JWT Authentication, RBAC, Dependency Injection, Hangfire, SignalR, AutoMapper, Caching
- Architecture & Patterns:** Clean Architecture, Domain-Driven Design (DDD), CQRS, MediatR, Vertical Slice Architecture, Multi-Tenant Architecture, Domain Events, Outbox Pattern, Result Pattern, FluentValidation
- Database:** SQL Server, Entity Framework Core, LINQ, Redis
- Testing:** Unit Testing, xUnit, Moq
- DevOps & Tools:** Docker, CI/CD, Git, GitHub, Postman, Swagger/OpenAPI, Scalar, Serilog, Observability
- Frontend:** React, TypeScript, JavaScript

EDUCATION

.NET Web Development Diploma — IT Legend

Aug 2024 - Dec 2025 | Cairo, Egypt

Coursework: OOP, Advanced C#, Data Structures & Algorithms, SQL Server, ASP.NET Core

Bachelor's Degree in Management Sciences

Oct 2020 - May 2024 | Cairo, Egypt

Higher Institute for Computer and Administrative Information Systems

LANGUAGES

Arabic: Native | English: Working Proficiency
